

The Calgary Weekly Herald.

VOL. IV.

CALGARY, ALBERTA, WEDNESDAY, MARCH 21, 1888.

NO. 76

FROM OTTAWA

Ottawa, March 19.—Greenway had an interview with Sir John today and is much elated over the prospects for a speedy and satisfactory settlement. Stephen and Smith are now discussing the matter with the Government and it is believed will sell the monopoly class relating to the Manitoba and Northwest Territories for \$12,000,000.

Cartwright has introduced a motion for unrestricted reciprocity, speaking for five hours, being followed by White.

Ottawa, March 18.—Sir Geo. Stephen told Greenway yesterday that the Canadian Pacific Railway had no money to extend branch lines in Manitoba.

Sir George Stephen and Judge Clarke the C.P.R. solicitor had a long interview with Sir John Macdonald when the monopoly question was discussed and it is now believed a settlement will be reached today.

Humors are gaining ground that C.P.R. will construct a branch line from Selkirk to Reburn leaving Winnipeg on a branch. Premier Greenway will likely have another interview with Sir John to-day.

Ottawa, March 18.—It is now reported that the Hon. G. W. Allan, senator, will be made speaker of the senate instead of Charles Rykert, Q. C. M. P., as formerly reported.

Gabriel Dumont in a recent letter said he had acquired considerable influence among the Indians south of the line, and if he did not succeed in getting the rights of the half-breeds by political efforts, he would again force the government to spend a few millions. The letters have been translated into Cree and circulated among the Indians.

Ottawa, March 17.—Premier Greenway and Mr. Martin, M. P., are still here and hope to return to Manitoba in a day or two with a welcome message.

It is understood the C. P. R. ask \$5,000,000 subsidy for their fast lines of steamers on both the Atlantic and Pacific coasts and that the Province of Manitoba buy the C. P. R. Eastern branch railway. H. F. Davis, M. P., made a capital speech today against Government action, overruling the resolutions made by previous opposition speakers and said that with Commercial Union Winnipeg would never become the Chicago of the Northwest.

Ottawa, March 19.—Sir John says he is very anxious to reach a settlement of the monopoly question. He also says it is impossible to settle such a large question in a few days, particularly when the house is in session. There seems no doubt that a settlement will be made on a basis of five millions subsidy. An impression prevails that the Province of Manitoba will buy or lease the Pembina branch. It is understood that Premier Greenway and President Stephen is favorable to an arrangement of this character. President Stephen and other C.P.R. officials will meet the cabinet again today. Premier Greenway will leave for home on Wednesday, the 21st inst.

Senator Geo. W. Allan of Toronto has been appointed speaker of the senate, and will assume the duties of the honorable post tomorrow.

The Prince Albert delegates have arrived and probably will have an interview tomorrow with departments to which their business belongs.

Ottawa, March 20.—Premier Greenway and Mr. Martin, M.P.P., left tonight, quite huffy, for home. It is considered here that they have made a mistake, as a settlement of the monopoly difficulty is more than ever probable and that they might have taken it home with them. President Stephen is here and a cabinet council will be held tomorrow morning, when the little hitch at present existing will probably be adjusted. It is now said on good authority that the compensation to be given the Canadian Pacific Railway will impose no financial burden whatever on the country.

The Deputation from Calgary arrived this morning to wait on the government respecting court house accommodation and other questions of interest to Calgarians. They will be joined by the Prince Albert deputation in pressing several Northwest matters.

Commissioner Birchmer was closeted with Comptroller Fred. White several hours today, discussing, it is stated, contemplated improvements in the Mounted Police service.

C.P.R. Extension.

GUELPH, March 20.—A dozen men under Mr. R. Haselwood arrived from Toronto yesterday to make a survey westward

in connection with the proposed Canadian Pacific Railway extension. They immediately started to work. The weather was rough, and beyond prospecting around very little work was done in the morning. It is understood that the men are to survey to Goderich, and they will push the work right away.

SHORT TELEGRAMS.

Toronto, March 18.—Two express trains left here last night for the Northwest, consisting of 47 cars of stock and 200 passengers.

HALIFAX, March 18.—Premier Fielding has introduced a resolution for the abolition of the legislative council of Nova Scotia.

WINNIPEG, March 18.—George Hudson and Daniel Gould, miners in the Peace River country, are missing and it is believed have perished.

MONTREAL, March 18.—T. B. Baker, ex-member, was unanimously chosen at the Conservative convention as the standard bearer in Mississippi.

WINNIPEG, March 17.—The jury on the Iago murder trial brought in a verdict of guilty with recommendation to mercy. Prisoner Newton said he was not afraid to die, that he was innocent and would go to Heaven.

Toronto, March 20.—The Legislature has passed the second reading of a bill to establish manhood suffrage in the elections to the Ontario Parliament. This virtually makes it a law. The House will be prorogued on Thursday.

BELLEVILLE, Ont., March 19.—Henry Corby, Conservative, was elected by acclamation to the House of Commons for West Hastings Saturday, to fill a vacancy caused by the death of the late Alexander Robertson, Conservative.

MONTREAL, March 20.—The detective trial is proceeding. Detective Wilson, who was a witness for the prosecution, has shipped out. The evidence is strong against Foley and others. The revelations have created a great sensation.

MONTREAL, March 20.—Gabriel Dumont has addressed a letter to the French press here relative to half-breed grievances. The article, he says, is not done in view of the Government's attitude, but that the half-breeds have not yet received their full rights. He seeks to justify the late uprising. Dumont desires to return to Canada.

BATTLEFORD, N. W. T., March 18.—Indian affairs are quiet now but the Indians are divided as to the expediency of rising and are anxiously awaiting developments from the south. Hayter Reed is at Edmonton and will relieve the distress there. The Metis at St. Albert are, in many cases, destitute and actual starvation will likely occur.

WINNIPEG, March 19.—Erasmus Wiman talked commercial union to a large audience on Saturday for a couple of hours, but produced no new facts or arguments. He gave a pleasing, if not impressive, address, and didn't succeed in making converts to his theory. Both chairman Galt and C. J. Brydges, the mover of a vote of thanks, were particularly guarded in expressions and by no means endorsed commercial union.

MONTREAL, March 17.—A meeting of the board of trade this afternoon was attended by eight hundred members. Complaints were made of the delay in the government not assuming the debt of the Montreal harbor trust and for not abolishing dues on vessels. The speakers said that Montreal was hastening to bankruptcy unless placed in a position to compete with New York and Boston by removal of the obnoxious restrictions on her commerce.

VICTORIA, B. C., March 19.—The sailing schooner Sapphire has cleared for Behring's Sea with a large crew. It is rumored that the crew has sworn to resist to the utmost any attempt by the American revenue cutters to interfere with them, and say they will kill any pirates who attempt to board their vessel on the high seas. The Sapphire is a splendid schooner lately arrived from Halifax, and will probably be able to show the Americans a clean pair of heels under favorable circumstances.

VICTORIA, B. C., March 19.—A young man named Jones, acting as correspondent for the Seattle Post-Intelligencer, was arrested and detained in jail several hours Saturday night on suspicion of being Tascott, the murderer of Mr. Suell, the Chicago banker. He was not allowed to communicate with his friends to establish his identity during that time. No charge against him was entered on the police book, and he will probably seek redress. The police are giving too fresh over this Tascott business.

AMERICAN NEWS

STAPLETON, March 17.—All communication cut off from the interior of Staten Island by the snow.

ELIZABETHTOWN, N. J., March 17.—Coal has been selling at \$3.50 a ton, in consequence of the storm.

ALBANY, N. Y., March 17.—The blockade on the New York Central has been raised and traffic is being resumed.

SCRANTON, Pa., March 17.—The snow on the Delaware & Lackawanna Railway, over the Pocono Mountains, is 40 feet deep in many places.

PATTERSON, N. J., The blizzard here has been the most awful yet known in the state. The suffering in the city was awful. All factories shut down for want of coal.

SANTA ROSA, CALIF., March 17.—The first session of the annual convention of the Grand Army of the Republic. Department of California, opened here this morning.

NEW YORK, March 15.—The storm has abated and railway travel resumed. It is feared many ships are lost off Delaware coast. The loss by the storm exceeds \$20,000,000.

NEW YORK, March 19.—Mr. Chauncey M. Depew of the New York Central estimates that the blizzard has caused a loss to the railroads running into New York City of about \$1,000,000.

DULUTH, March 18.—Erasmus Wiman delivered an address on Commercial Union tonight. He said the removal of restrictions to trade relations with Manitoba and the Northwest would give Duluth a great impetus.

SAN FRANCISCO, Cal., March 19.—William O'Connell of Toronto, who had been in San Francisco in the last night Saturday, the three miles were covered in 23 minutes. O'Connell was 100 feet long.

SAVATY ST. MARK, March 18.—Persons here have been told that the Rev. Dr. Smith's personal store, which is a real curiosity, John A. Hillman and Dr. Reid's office were destroyed. Loss \$20,000.

SAVANNAH, Ga., March 18.—Senator Jones has introduced a bill repealing the salt and inland revenue tax on tobacco and fruit brands, and reducing the tax on whisky to 20 cents a gallon. The bill also proposes to take the tax off many necessities of life of every day consumption.

SAN FRANCISCO, March 17.—The jury in the case of John A. Dimmig, the hotel agent, charged with the murder of Henry Bonhagen, was discharged this morning, having failed to agree on a verdict, although they were out all night. They stood 7 for acquittal and 5 for conviction.

CHEYENNE, Wyo., March 20.—James Francis, of Basilio, Carbon County, a banker, and for over 20 years a prominent citizen of the territory, failed yesterday. The assets will reach \$277,000, and the liabilities \$143,000. Francis was recently heavily implicated by the defalcation of two county officers for whom he was surety.

BALTIMORE, March 17.—The news of damage done by the late storm is coming in slowly but every vessel arriving in port is bringing reports of some wreck. From various returns received it is shown that over forty seamen have lost their lives and almost a 100 schooner sloops and other crafts have either been driven ashore or hopelessly wrecked at sea.

SAVANNAH, Georgia, March 19.—The fast mail train from New York to Jacksonville, Fla., went through a trestle near Savannah this morning. The entire train, except the engine, was demolished. Twenty-five persons were killed and about 40 injured. Among the injured are George Gould and Mrs. Gould, also President Wilbur of the Lighthouse Valley road.

ROCHESTER, N. Y., March 20.—The African comet was seen at the Warner Observatory this morning, and was observed up to within 5 minutes of 6 o'clock. It was just visible to the naked eye, and had a tail two degrees long. It was too near both the sun and the horizon to be well seen. Its position was about right ascension 21 hours 16 minutes, declination south 16 degrees 30 minutes.

SACRAMENTO, March 19.—The Secretary of the State Board of Health has received a letter from the County Clerk of San Diego, in which it is stated that smallpox prevails at San Luis Rey and is spreading rapidly. A letter was also received from Los Angeles stating that smallpox cases are increasing there again. Fourteen cases are reported for the week ending March 16th, at San Diego for same period.

6 cases were reported and at Oceanside 6 cases and 1 death.

ALBUQUERQUE, N. M., March 17.—Right Rev. M. K. Dunlop, the Episcopal bishop of New Mexico and Arizona died at Las Cruces, yesterday, from disorders of the head and lungs.

DENVER, March 17.—The Santa Fe trains were all tied up today. This included the California Southern and California Central systems. The brotherhood say that unless the Burlington & Quincy trouble is soon settled every road west of Chicago will be tied up.

HARTFORD, CONN., March 17.—The Gatling gun plant and patents have been bought by an English syndicate, and the gun will be manufactured hereafter in England. The move is the outcome of negotiations which have continued during the past two years with British arms manufacturers.

NOGALES, A. T., March 17.—Four of the remaining bandits of Berral's band were seen near Callero, Sinaloa, a few days ago. A posse have gone in pursuit and it is believed they will be captured. A fight with bandits has occurred in Durango and several were killed on both sides. Particulars of the affair are not obtainable at present.

NEW YORK, March 17.—No parallel to the late storm was ever known in New York York. The state of affairs was simply terrible. The snow lay 3 feet deep everywhere. All kinds of business stopped. The milk supply gave out. Not a car was running in the city. The telegraph wires were badly frozen and some perished on their way from the workshops to their homes.

SHORT CABLES.

LONDON, March 20.—Mitchell has challenged Sullivan to fight for \$5,000 a side.

LONDON, March 18.—One hundred and fifty Belgian farmers for Calcutta, Alameda, will leave Liverpool tomorrow.

LONDON, March 20.—The Imperial Government has brought down local government measures for England and Wales.

LONDON, March 18.—Prince George of Sweden was married yesterday to Princess Sophia, who is his mother's daughter. The church was crowded with nobles.

BERLIN, March 18.—If the weather is favorable tomorrow Emperor Frederick may attend the last rites of the funeral of Emperor Charles, but will not join in the funeral cortege.

BRUSSELS, March 17.—The funeral of Emperor William took place today. Immense crowds were present. Emperor Frederick was not able to attend he was represented by the Crown Prince William.

BERLIN, March 20.—A royal message from Emperor Frederick was read in the Landtag yesterday. Prince Bismarck presented it and referred to the many expressions of sympathy from different nations on the death of the late Emperor William.

The Engineers' Strike.

KANSAS CITY, March 14.—All engineers and firemen on the Atchison, Topeka & Santa Fe road left their engines at 4 o'clock yesterday.

CHICAGO, March 17.—Chief Arthur declared Saturday that the strike on the Santa Fe road had been undertaken without his knowledge or sanction, and vehemently insisted that if the present condition of affairs continued, he would resign his position before he would sanction such a course on this or any other road. The action of the Santa Fe men, he said, increased the responsibilities of the order, placed it in a bad position, and indicated, moreover, apparently, a disposition on the part of the men to ignore his authority. Mr. Arthur's chief henchmen also expressed surprise and regret at the developments in the southwest, while Chief Sargent of Firemen's Brotherhood was compelled to repeatedly admit that he had not been consulted prior to the Santa Fe strike, and that, in his opinion, the move was both unwise and impolitic.

KANSAS CITY, March 19.—The strike on the Santa Fe railroad is over, the company having acceded to the men's request to handle no more C. B. & Q. freight.

Senator Plumb's Funeral.

TENNESSEE, March 16.—The funeral of the late speaker of the senate J. B. Plumb took place at Niagara town today, it was one of the most imposing funerals that was ever seen in the Province of Ontario. Every part of the province were represented. Floral offerings were numerous including one from the Governor-General and Lady Londonderry and many from his fellow senators.

TODAY'S REPORT

OTTAWA, March 21.—Matters are now assuming a definite shape. Hon. J. J. C. Abbott and Judge Clark are drawing up an agreement between the Government and the C. P. R. and the finishing touches will be put on to-day. It is understood the entire monopoly both in Manitoba and the Northwest will be done away with.

There is a great deal of bad feeling engendered by the sudden departure of Premier Greenway and Martin when settlement was so near at hand.

It is said that some Liberals in the house of commons urged them to return to Manitoba and start a rebellion on paper, putting the country in a state of ferment and decrying immigration and thus afford the Grits a political war cry.

Lieut.-Gov. Dewdney is here promoting the passage of Northwest Legislation which will shortly be introduced. It is understood the measure will provide for representative government in the territories. Out of the 25 members of the council, which will be given greatly increased powers, 22 will be elected by the people.

Sir Richard Cartwright is asking parliament for the names of all lease holders in Alberta the number of cattle each one has and whether in arrears for rent, whether the lands under lease is good agricultural lands and as to loss of cattle in the winters of 1886 and 1887. Also how many acres of land in the district of Alberta is held under lease for grazing, and for which settlers are not allowed to homestead without permission of lease holders.

WINNIPEG, March 21.—The worst storm of the season raged throughout Manitoba yesterday. The weather was very cold. Railway trains were greatly delayed in every direction.

MONTREAL, March 21.—The detective trial closes to-morrow. It is generally thought detective Fahy will be found guilty.

Twelve detectives and six agents of the police force here, have been given notice by the city council that their services are not required after May 1st.

Mr. Baker, conservative and Mr. Weige (liberal), were nominated for the House of Commons in the election of Manitoba, to be held by the Conservatives.

WASHINGTON, March 21.—Negotiations are going on which will probably result in legislation of bringing the C.P.R. and other Canadian roads under the operation of the Inter-State Commerce act.

LONDON, March 21.—The Hon. Jos. Chamberlain will be given a grand banquet by the Devonshire club on April 9th.

BERLIN, March 21.—By command of the Czar, the Imperial household, the Ministers of State and other notables, attended church in "mourning" for the late Emperor of Germany, at St. Petersburg.

NATIONAL PARK.

From our Correspondent.
The weather has been remarkably fine for the last few days causing the snow to melt very fast. The small boy is in the height of his glory floating round on the paddles in his improvised ship built of packing cases and borrowed scantling.

There was a small fire at Supt. Stewart's place the other day destroying a tent and some other things, loss not heavy.

We are going to have a sewing machine factory started here, this is a good move, sewing made easy means that the rents in the boys' unmentionables shall be closed. But it is not intended to sew up the gap in the mountains through which the C.P.R. passes.

Building operations are beginning to boom. The echo of the hammer is heard reverberating through the mountain tops, and we kind of like the music.

Messrs. Gilmour & McNulty have received a large stock of dry goods, clothing, hats, fancy goods and, &c. If any of your relatives want to replenish their stocks let them take a trip to the Park.

Mr. Louder got his arm badly hurt while hunting in the bush.

Mr. Robert Healpin has taken a contract for hauling logs out of the bush. He is using horses. Ozen would be much better adapted for that work where the ground is so uneven.

A by-law granting \$4,000, for school purposes has been carried by 55 of a majority.

There was a big time at the Park last night. The town was lit up with a bon fire and the band was out discussing sweet music. Mr. Neeling made the speech of the evening. Everybody was happy.

Three ladies who have been away returned to the Park last night.

The Calgary Herald.

THE COUNCIL AND FIRE BRIGADE.

We publish below the report of the Fire, Water and Light Committee of the 15th Feb., 1888, showing the full term which the Council offer the brigade. We give publicity to this report in order that the taxpayers may judge for themselves of the situation especially as a committee of the fire brigade have stated to the Fire, Water and Light Committee that the only terms they could accept are that the Council vacate the Fire Hall and give up the whole and sole control of the same to the brigade. What have the ratepayers to say to this proposition?

Your committee appointed to draft a code of rules in connection with Fire Hall and fire brigade beg to submit the following:

1. Resolved, that the assembly room of the Fire Hall shall not be rented for any purpose.
2. Resolved, that the regular and special meeting of the council, and such public meetings as the Mayor shall consider proper, shall be held in the assembly room of the Fire Hall.
3. Resolved, that the council shall allow free use to the Fire Brigade of assembly room of the Fire Hall for their regular Tuesday meetings; also, for their own calls, their own musical and literary entertainments, for reading room and gymnasium purposes when not required by the council, or for public meetings, and not inconsistent with the conditions of the insurance and the safety of the building.
4. Resolved, that no ball or entertainment shall be given by the Fire Brigade in the assembly room other than their Tuesday night weekly meetings without first learning from the Mayor that the assembly room is not needed by the council, or for public meetings, at the time the Fire Brigade wish to have such meetings.
5. Resolved, that the council do not approve of private persons visiting the assembly room of the Fire Hall except at council or public meetings, to the annoyance of the Fire Brigade.
6. Resolved, that a grant of \$100 be made to the Fire Brigade to assist them in their musical and literary or gymnasium pursuits, with the understanding that such grant be to the Fire Brigade and not to individual members of the Brigade.
7. This committee recommend that so soon as in the opinion of the council the town finances will permit, \$100 be placed at the disposal of the Fire, Water and Light Committee to purchase helmets or other uniform for the use of the Fire Brigade.

(Signed) H. DOUGLAS,
Chairman.

MR. HUGH MUNRO.

DEAR SIR:—We beg to apologise for the rather mutilated form in which your letter appeared in our columns on the 7th instant. There was no intention on the part of the proprietors of the Herald to do you any injustice. We are most anxious to give the fullest scope to all intelligent communications on matters of so much importance to the public as those upon which Mr. Munro has been writing. It was not Mr. Munro's fault, nor the fault of any one now connected with this office, and we assure Mr. Munro that we will be only too happy to publish any information or suggestions he can give on cheese factories, creameries, or indeed any matter calculated to be a public benefit.

The offer made by Mr. Munro to furnish the milk from 25 cows of his own and guarantee the milk from 200 for a cheese factory, shows that he means business. If a few such men as Mr. Munro will put their energies together a cheese and butter factory will be secured and sure of success. Of course we in Calgary would like to see the factory here, but if there is a better place for it we think the people of Calgary will not object to locating it elsewhere.

NATURAL GAS.

In view of the fact that a contract may be entered into at an early date with the Natural Gas Company who got a charter at Regina last year, giving them the sole right of laying pipes and supplying gas for twenty years, in Calgary, we think it proper to give the public all the information possible and therefore publish the schedule of rates charged in Litchfield, Illinois, which is the one recommended to the council by the special committee on natural gas, as being a fair price to adopt. Any one who has taken the trouble to read the report of the committee published in the Herald of the 15th instant, will have no difficulty in arriving at what the committee advised the council to adopt as a basis of contract, when they read the schedule of rates which we herewith publish. It must be noted, however, that in the basis of contract the commit-

tee secured certain important concessions from the Gas Company not included in the Litchfield conditions or the company's Regina charter. The charter gave them two years to make a test in; the committee gave them a little over one year. The charter gives the company four years to get ready to supply gas to the town; the committee give them about two and a half years as the outside limit. The charter gives them twenty years full swing, the committee only give them five years till they must come down 25 per cent. below Litchfield rates on the price of gas used for all purposes (except street lighting) for the remaining fifteen years of their charter. The reason no reduction is made at the end of five years on street lamps is simply because the committee bind the company to very low prices on street lights from the first, namely, 31 per light per month for a torch light of fully 160 candle power, to burn all night. The next and last special concession obtained is the reduction from the start of 25 per cent. on all gas used for heating or cooking during four summer months in each year. The committee have made many memoranda and shown them to the gas company in reference to details informing them that they would require them to be a part of any contract made with the town. These refer chiefly to the safeguards as to kind and size of pipes, the pressure that would be allowed, the kind of burners to be used, the purifying of the gas, proper pipes for escape of surplus gas, etc. We might say by way of explanation that the rates to be charged are by the month, and the consumer will have the privilege of using it for just as many, or few, months in the year as he pleases.

COUNCIL MEETING.

A Lively Time—Report of Special Committee on Natural Gas—Lots of Spontaneous Gas Let Off.

The Council and the Firemen.

The council met at 8 p. m. in the Fire Hall. Present—the Mayor, A. E. Shelton, Councillors Collins, Linton, Orr, Douglas and Allan. Coun. McCallum was not present, he being out of town.

COMMUNICATIONS.

A letter from H. Blecker, barrister, was read, agreeing to accept the offer made by the council two weeks ago of \$450.00 in full settlement of the disputed claim for \$900 of Mr. Pitman's assignee for work on town tanks last year. The town solicitor was instructed to enter judgment without cost for that amount. A resolution was passed that an order be drawn on the treasurer for \$450, as in full, and so a long standing dispute is settled.

A communication was read from Mr. J. S. Ingram asking the Mayor for a certificate as to the length of time he had served as chief of police in Calgary. Certificate granted.

A letter was received from Oliver Goodman asking for the position of city scavenger. Referred to committee on Market and Health.

Coun. Collins brought in his report as chairman of finance, recommending payment of the following accounts:

Calgary Tribune, printing part of the petitions to be sent to Ottawa.....\$ 9 80
Advertising.....27 49

\$ 36 49

Electric Light Co., street lighting for February.....47 60

Frank Dick, re fire brigade.....8 56

J. D. Geddes and A. Lucas, auditing accounts.....40 00

Mr. Davidson, clock for engine room.....10 00

J. Deacon, coal.....8 00

Telegraph and express.....12 65

An order was made on the treasurer to pay for the Silsby heater now in use in the engine room.....180 00

Coun. Collins further reported the receipt from collection on account of last year's taxes of \$1,500, and that the total receipts from old taxes, licenses, dog tax and discounts as shown by the treasurer's account to be \$7,342.56 since 1st January.

A detail of the expenditures was also given showing the amount on hand after paying up the McLeran Belting Co. of Montreal \$746, and providing \$500 for the Ottawa delegates to be about \$700.

In reply to Councillor Allan the Mayor said the auditors' report for last year was being printed in pamphlet form at the Tribune office and he expected it would soon be ready.

REPORT OF SPECIAL COMMITTEE ON NATURAL GAS.

Your committee appointed to confer on the national gas question with Messrs. Lucas, McCarty and others, beg to report that they have done so and after considerable correspondence with places where natural gas is used. They beg to submit to the council the following report, as a basis of agreement and would ask that the council approve of the same.

1st. That the test for natural gas shall be made within one year from the 1st of July 1888.

2nd. That the town be supplied with gas within two years from 1st of September 1888.

3rd. That the Schedule of rates be the same as that of Litchfield, Ill., as stated on page 513 of last geological survey, for five years with a reduction of 25 per cent. at the end of that time on all gas used, except that for street lighting.

4th. That torchlights for the streets be used through 3-8 inch valve using inch pipe with perforated burner 10 inch long at \$1 per month. The town taking not less than 25 street lights with power to increase the number.

5th. A reduction of 25 per cent. to be made on all gas used for cooking and heating purposes from 1st of May to 1st of September in each year.

REPORT OF PUBLIC WORKS COMMITTEE.

Your committee beg to report that they have made full enquiry into the claim of Major James Walker for extras on the Elbow bridge, amounting to \$56.57.

Your committee find that the work was done, and that in the opinion of competent judges it was important to have the work done. They also find that a reduction material and work was made by Major Walker, in that instead of putting a double floor of 2 inch plank on the bridge as provided in the contract a single 3 inch floor throughout, was put on making a saving of about \$50, to Major Walker.

The engineers Messrs. Childs & Wilson set off this against the other work done and refuse to grant a certificate, under which circumstances we cannot recommend the payment of the account. We have attached the report of the engineers to this report.

WESLEY F. ORR,

Chairman Public Works Committee.

Councillor Douglas brought in a report from fire, water and light committee but as the report was after discussion, withdrawn by the chairman, we do not publish it in full. The first part of the report referred to the new large tanks, built by Mr. McKenzie. Though the tanks are holding water nearly to the top, were not considered quite up to the terms of contract, and acceptance was deferred for the present.

This report also gave the result of conference between the fire, water and light committee and a committee of the fire brigade re conditions on which the brigade have the use of the fire hall. The brigade committee claim that when the hall was completed last year the whole and sole use and control of the assembly room was given to them by the council of last year, in writing. The Mayor and Councillor Allan who are the only members of that council, now in the present council disagreed entirely with the fire brigade committee on their view of the matter, saying that no order resolution or other action of the council, had given the brigade the privileges they now claim. The Mayor says that as Chairman of the fire, water and light committee last year he wrote a letter to the brigade on the subject, there appears to be no copy of the letter and the brigade have failed to produce the letter. The only terms which the brigade offer to accept are that the council vacate the chamber. What do the ratepayers say to that proposition?

Councillor Collins spoke strongly against the proposition. It was finally moved by Councillor Allan seconded by Councillor Orr that the report of the fire, water and light committee of 15th of February be adhered to, this resolution was carried unanimously. The Herald will give the report of 15th of February in full as soon as we can get room in order that the ratepayers may have an opportunity of judging for themselves of the action of the council.

BY-LAWS.

By-laws No. 78 was introduced and passed in committee of the whole providing for employment of M. S. Dillenbough as chief of police and paying him a salary of \$65.00 per month. (He also gets certain fees). The by-law also provides for the employment of James Geir as engineer of fire department at a salary of \$75 per month.

DOGS.

It was resolved that a reward of 25 cents, each, be given for bringing dogs without tags to pound if tags are stolen or lost off registered dogs the boys want get any pay.

By request Dr. Lafferty was allowed to address the council on the report of the committee on Natural Gas. He put several questions in reference to the terms of proposed agreement between the council and gas company, which were answered by the Mayor, Councillors Collins and Orr. The Doctor seemed rather fractious and disposed to view the report as having been arrived at without sufficient care for the interest of the people as against the gas company, and allowed his temper to get slightly ruffled when told by Coun. Orr that it was a matter he ought to be able to figure out as to how much light we were binding the gas company to give to the dollar. When informed that the street lights would be five times the capacity of the present electric lights, and would cost only one-fifth of what the town is now paying for them, the Doctor censured the committee for not binding the gas company to sell out to the town at the end of some period, say 10 years, at a certain percentage on their outlay of capital. Mr. Orr thanked the Doctor for the suggestion but said they had not neglected to discuss that question with the gas company, but that the company declined to be bound to sell out at figures that could now be named unless the town would agree to be bound to buy out if the company wanted to sell. The position the Doctor appeared to want to place the company in would be this: That if the company were successful and they were getting good returns for the capital risked in the venture, then the town should take it from them at a nominal figure, but if gas was not found and all the money put into it was lost, then the company might go where gas is furnished "free" and help themselves. Mr. Orr went into details too long for us to report of the work they had done in writing to a dozen different places in the States for information, where natural gas is used, as to rates, details of contracts, etc., etc., and had spent much time in reading up all the works they could get hold of, both official and private. The committee had met often and had met the gas company repeatedly, and their report which they proposed to use as a basis of contract was the result, were the best terms they could get from the company and was the result of careful thought and as thorough investigation as the time they had the matter in hand would permit of.

Dr. Lafferty addressed the council on the Ottawa delegation question, he did not object to a deputation being sent, in fact thought three instead of two gentlemen should have gone on so, important a mission. He found great fault with the political complexion of the delegates.

Characterizing it as a far-e to send men who were supporters of the government such as Mr. Lucas who was in receipt of patronage from the government through being owner of the government organ, THE HERALD and expecting more favors for himself was not in a position to press the claims of Calgary. He claimed that a reformer should have been added to the number of delegates sent, as the only means of getting our rights. He pitched in to the council for asking Mr. J. A. Loughheed to act in conjunction with the delegates. Claiming that it was impossible for Mr. Loughheed to act independently on account of his connection with the C. P. R. in fact ridiculed the whole arrangement unless a reformer was sent along.

The Mayor replied that the question of politics had never been mentioned nor thought of in this matter so far as he knew until the Dr. had now introduced it. He the Mayor deprecated the introduction of politics into municipal affairs and said so long as he held the civic chair he would do all in his power to stamp out any attempt to introduce them. But felt sure that so far as the present council were concerned he believed they were men far above any such contemptible doings and that he never would find it necessary to put any check upon them in that line.

Councillor Collins in a few well chosen words denounced the introduction of politics and severely rebuked the Dr. for the stand he had taken now at the 11th hour, gently hinting that if a reformer was to be sent the Doctor would probably be on hand for a trip, observing at the same time that the Doctor, from his political experience, knew very well that the way to get favors from a government was not to send opponents to bully the authorities into granting the thing asked for, and that the present was no exception, as he (Collins) thought the government at Ottawa had not the fear of the Doctor before their eyes.

Mr. James Reilly in a very caustic speech (which we have not room for) dealt out in scathing terms what he thought and what he believed was the opinion of all right thinking men present. As to the Doctors unwarranted attack on Mr. Loughheed, in his absence, stating the Doctor knew well the independent stand taken by Mr. Loughheed on the monopoly question at the banquet given to Gov. Dewdney and at the public meeting held in the fire hall a few weeks ago, on both of which occasions Mr. Loughheed had made splendid speeches in favor of our best interests being pushed at Ottawa, and he (Mr. Reilly) believed Mr. Loughheed was prepared to show his faith by his works.

Coun. Collins moved an adjournment of the council which was carried.

INDERWICK & LEATHAM.

Range—Between Middle and North Forks of Old Man's River.

Address—Fort Macleod, N. W. T.

OPEN LETTER TO OUR DELEGATES AT OTTAWA.

We beg to call the attention of the Calgary deputation to some matters which may have escaped their notice, one of these is the Icelandic Immigration question. We are informed that a large number of emigrants will leave Iceland about the months of June and July for Canada and the Western States. Many of them will take their tickets for Winnipeg and others for St. Paul, and unless otherwise advised they will settle at the nearest point to Winnipeg or St. Paul. Now we feel convinced that it would be in the interest of these people and of the district of Alberta if they could be directed to Alberta. (Thermometer 66 above zero and spring seeding began on St. Patrick's Day, 17th of March.) We ask our delegates to interview the Hon. Mr. Carling on this matter. We would suggest that an intelligent Icelandic who can read and write both the Icelandic and English and who has had experience in Alberta should be sent to meet these people at some point if not in Iceland then to the point in Scotland where they usually come in small numbers on small steamers, and take ship in larger numbers for America. We believe that Granton and Leith are the two principal places in Scotland from which they embark for the Western World. There are but few of these people who can speak English and after they leave the small boats which bring them to Scotland, they are very much at loss, for some one to direct them properly and are often led away to the Northwestern States. About 3000 are expected to leave Iceland this year. This matter is worthy of our delegates attention. Some time ago a petition was sent by the Board of Trade the Town Council and Agricultural Society asking to have a notice printed in the Alberta pamphlet, advising emigrants in the old world to buy their tickets for Calgary, because if bought for Winnipeg it will cost as much as come from Winnipeg to Calgary as from Liverpool to Winnipeg and Calgary if bought through at point of starting is about the same. The government were also petitioned to have a number of the Alberta pamphlet published in the Icelandic and Scandinavian tongues for circulation in these Northwest countries, was that done, please enquire. We were promised that a couple of hundred copies of the Alberta pamphlet would be forwarded to Calgary as soon as printed. The sooner they can be got here the better. A good use will be made of them by having settlers here send copies to their friends in the agricultural districts in Britain and writing to these people endorsing the facts set forth in the book. This will produce 100 times the results that sending them to railway stations, &c., in the Old country would have, where few but towns people would see them and even these would have no means of judging whether they are facts or fiction. The people of the old country have been so often deceived by romantic reports of other countries seeing to allure the emigrant that they now want book reports to be substantiated by some one on whom they can rely. Gentlemen we mean to keep you supplied with work while at Ottawa. No junket journey yours.

THE BELGIAN IMMIGRANTS.

The Belgian immigrants, who are reported to have left Liverpool some days ago en route for Calgary, will meet, we hope, with some attention at the hands of the Town Council and citizens generally. As they number 150 it is quite evident that the immigration shed, even if it were not mainly taken up by the agent's, judge's, clerk's and sheriff's offices, will be quite insufficient for their accommodation. It is not likely they will remain in town over two or three days, as their destination is some twelve miles north, so the effort to provide them with food and perhaps shelter should not be difficult. We would suggest that the Acting Mayor should form a committee to look after their wants and assist Mr. McQuillon to accommodate them, and that if necessary the town council should make small grant for the same purpose. As they are due in another ten days there is not much time to be lost.

And another matter in the same connection should not be overlooked, and that is the chance of the Winnipeggers inducing this colony to stop off in Winnipeg and settle on those "vacant lands" we have heard so much of, and for the settlement of which a company has been formed in Winnipeg. This is very pro-

bable contingency and it is worth providing against. The Winnipeg company will do all they can to divert these settlers from Calgary, and if they are worth anything to Winnipeg they are worth as much to Calgary. Perhaps the town council will think it worth their while to hold a special meeting and look after these matter which are certainly important.

ELONGATED MOVING PALACE.

The vestibuled train is the latest and greater improvement of the idea put forth in the Pullman sleeping car—that of providing the most comfortable, the most luxuriant and the safest transit for the railway passenger, and the newest and unquestionably the finest product of the Pullman shops are these magnificent cars. By an ingenious device the whole train is united under one continuous roof, so that in place of detached cars with exposed platforms, there is, in reality, an elongated suite of elegantly furnished apartments, comprising all the comforts and appliances of the most luxuriously appointed hotels. The passenger passes from his bed room to the bath room or barber shop, and from the dining room to the smoking room or reading room, without the least exposure to the elements or to any risk of soiled hands or garments, such as a passage across the platform of an ordinary car is likely to involve. A child can go from one end of the train to the other without the slightest danger. The vestibules, which constitute the main feature of this model train, are formed by enclosing the platforms. They are as elegantly finished as any part of the car, carpeted as to entirely conceal the points of connection between the joined cars, and illuminated by means of light depending from the ceiling, whose rays fall through out-glass paneled door full upon the steps. The side doors, opening out on the steps, are barred while the train is in motion, but they can be opened instantly when the stop is made. A vertical buffer between the cars imparts greater steadiness to the train, reduces the tendency to oscillation and equalizes the resistances. Superlative elegance is exhibited everywhere.

BRITISH COLUMBIA FISHERIES.

The Colonist gives a detailed account of the quantity and value of the various kinds of fish caught in British Columbia waters during 1887. There are 21 salmon canning factories in the Province, 12 of which are on the Fraser river, five on the Skeena, two at Rivers' Inlet, and one each at Albert Bay and Smith's Inlet. The total number of cases of canned salmon put up was 205,068. The fishing season at Rivers' Inlet was very short; at the other points fairly good. A total of 4,693 fishermen and shore men were employed in the business. No report is given on seal fishing. Large quantities of sturgeon and halibut were taken, but almost nothing was done in cod and herring, both of which are likely to be largely prosecuted in the future. The black cod from the Northwest coast of Vancouver Island are a superior fish. Both these and herring abound and will become a source of great revenue. "We have had both the black cod and herrings from the coast in Calgary and know them to be good. Another fish called onchanous are very plentiful but not fished for to any extent yet." What about the oyster business, friend Colonist? There are millions in cultivating oysters in your bays.—ED. HERALD.

EDITORIAL NOTES.

The Macleod Gazette of the 14th, in commenting on an article from the Regina Leader, says of the Mormon settlement recently established on Lee's Creek, some 40 miles below Macleod: "One of the articles of faith in the Mormon religion is obedience to the laws of the country they live in, and that they have not the slightest intention of breaking the laws of the Dominion in any particular we are quite well aware." The Gazette is mistaken. The chief article of faith of the Mormon church is for the rank and file to obey the orders of the priesthood. While few in number, they are very lamblike; but let them once get the whip hand, and then the laws of the country are violated with impunity if they conflict with the dogmas of the church.

Mr. Charles Shields, who about a year ago was superintendent of the Medicine Hat to Donald division of the C.P. road, got a royal send off at Great Falls, Montana, a week ago Saturday night. Since last spring Mr. Shields has been superintendent of the Montana extension of the Manitoba system. At the banquet Mr. Shields was presented by his friends with a purse of \$2,000 and a testimonial of regard of uncertain monetary value. He

leaves the Manitoba to take a position under General Manager Egan of the Chicago, St. Paul & Kansas City railway. Egan evidently sticks to his friends.

Hugh Cecil Lowther, Earl of Lonsdale, who will be in Calgary in a day or two, on his way to the Arctic Ocean, was born in London, January 26, 1857. He succeeded to the title four years ago. In 1878 he married Grace Cecelia, third daughter of the twelfth Marquis of Huntley. There is no issue. Lonsdale is an accomplished sportsman and athlete. He is adept in the static grip, having "laid out" Sir George Chetwynd in London not a great while ago. He is a member of the House of Lords, has forty living of the church in his gift, is colonel of a regiment, admiral of the coast of Cumberland. The earl is six feet high and muscular. He is light complexioned, has brown hair and pleasant expression. Lord Lonsdale is known at home not only as a crack pugilist, but as a very hard rider to bounds. His pace and dash in the saddle are known in Leicestershire as the "Hue and Cry." A few years ago he was admired for his ability as a jockey, although a heavy weight. His chief claim to the admiration of his set was established by the feat of riding four races in one day at the Burrow Hill meeting, and then having four rounds with a butcher, who, not recognizing his lordship, was guying him and shouting uncomplimentary things about his personal appearance. Lonsdale, then simply Hugh Lowther, far from a beauty. Dismounting, he polished off the butcher, a giant in stature and "fighting drunk," finishing him in four rounds by a complete knock-out.

Open Letter.

Messrs. SHELTON AND LUCAS, Delegates to Ottawa.
GENTLEMEN—We beg to call your attention to the accompanying plan of mail route between Calgary, Okotoks, the proposed Davisburg P. O., and Dunbow, and ask that you will kindly have the question of causing a postoffice to be established at Davisburg at once brought before the Post Master General. If it could be opened before the water rises in High River it would be a boon to a large number of settlers. As you will see by plan it is proposed to locate the new office on section 32, township 21, range 23 west of the 4th meridian. This new postoffice could be served by the Dunbow courier without any additional expense, as it will be on his present route via the Blackfoot trail to Dunbow. This proposed arrangement would accommodate about 25 families, on the west side of High River in the immediate vicinity of Davisburg who are now obliged to go a considerable distance and cross High River on their way to their present and only postoffice at Dunbow. High River is an impassable stream for several months each year, and even when fordable is one of the most dangerous streams in the Northwest.

INTERESTED SETTLER.

March 15, 1888.
Early Closing.
To the Editor of the Herald.

Now that the lovely summer weather is again drawing near when we can enjoy a few hours' outing after the day's business, would it be asking too much of the business men to close their stores at the same hours that they did last year? I am sure the clerks would appreciate this consideration from their employers as much as they did last season, and a good many of the merchants, as well as their help, would enjoy a few hours relaxation from business. A number of the merchants have spoken of it lately, and expressed themselves in a way which leaves no doubt about it being popular with them. I hope some of the influential merchants will take hold of it and endeavor to bring it about. Yours, &c.,

ONE INTERESTED.

Mr. John Macdonald's Letter.
Acting Mayor Orr is in receipt of the following letter in Sir John's own handwriting:
EARNESCLIFFE, March 9th, 1888.
SIR,—I have the honor to acknowledge the receipt of a letter from yourself and the President of the Board of Trade of Calgary on certain territorial and local matters affecting your municipality. Your communications shall receive full consideration.

I have the honor to be your very obedient servant. JOHN A. MACDONALD.
A. E. SHELTON, Esq.,
Mayor of Calgary, N.W.T.

Return Thanks.

The Rev. Father Leduc, superior of the mission, tenders his sincere thanks to the people of Calgary for their liberal patronage of the concert and lecture on St. Patrick's evening. He is especially grateful to the artists who assisted in the musical part of the divine service held in the Mission church on Saturday morning and at the concert in the evening. We are authorized to state that the net proceeds of the evening's entertainment is something over \$300.

ST. PATRICK'S DAY.

How it was Observed in Alberta's Metropolis.

The concert and lecture in the Royal Opera House Saturday night proved, as we predicted, a great success. The hall was filled to the very doors with an appreciative audience. The inscription over the platform was a puzzle to many. Seeing it was neither Hebrew, Greek or Latin, English, French or German, we gave it up, till the Rev. Father Fox interpreted the Gaelic words as meaning "a thousand welcomes." One striking feature of the entertainment was that, though the occasion was the celebration of the birth of Ireland's patron saint and the financial object was to raise funds for building a Roman Catholic church in Calgary, of all the artists who assisted in the musical programme there was but one Catholic. The next striking feature noticeable was that all the Protestant clergymen of Calgary (except Bishop Pinkham, who is away from home) were present, fraternizing with the reverend fathers of the Roman Catholic Church. And, lastly, fully one-half of the audience were Protestants; thus showing that harmony, peace and good will prevail amongst the Christian people of this town. This is a fact that Calgary may well be proud of, furnishing an example worthy of following in this wide, western country.

The front row of seats was reserved for Judge Rouleau, Rev. Father Fox of Winnipeg, Rev. Father Doucet of Blackfoot Crossing, Rev. Fathers Leduc and Blais of Calgary, Rev. E. Paske Smith of the English Church, Rev. J. C. Herdman, Presbyterian, Rev. J. F. Betts and Rev. Geo. Jacques, Methodist ministers, and Acting Mayor Orr of Calgary.

The musical programme was opened with an octette (Rehears from the Lake) by Violetta. The octette was formed by Mrs. Allen, the Misses Dowling, Paterson and Proctor, and Messrs. Wellcome, Harper, Douglas and Kinnister; piano accompaniment by H. H. Wetherly. It was well received and applauded. The song "Killarney" was rendered by Mr. Wellcome, and though not quite over his late illness, the effort was appreciated for his fine voice; accompaniment by Miss Dowling. The rendering of a song, "The Two Grenadiers," by Mrs. Allen, piano by Miss Dowling, was a leading feature of the programme, and the audience were well pleased with it from the manner in which it was received.

On account of illness Mr. Brealey was not present, and Mr. J. S. Douglas kindly took his place, giving The Shamrock in a style that made one think Mr. Douglas had at some time kissed that magic plant, though probably he never licked the blarney stone, with his heels in the air, as the reverend lecturer said he had done.

The cornet solo by Mr. H. Kirk, piano accompaniment by Miss Dowling, was the music of the evening, it being, in a short word, exquisite. It was vociferously endorsed, and they appeared to do even better than at the first time, if that was possible. At this stage Mr. J. R. Costigan introduced the Rev. Father Fox, lately from the emerald isle and now of Winnipeg, who delivered his lecture on "Ireland," occupying about an hour, in a manner which was very pleasing, and commanding the closest attention from all his hearers.

This English-Irish-Canadian clergyman has a fine physique, and possesses a clear, strong but yet musical voice. Every word he uttered could be heard distinctly all over the hall. We had prepared a full report of the lecture, but by request do not publish it. The reverend gentleman having prepared the lecture with great care, intends to use it in the future, as in the past, to make money for such worthy objects as that in view on that occasion, namely, raising funds for building a church, or for other religious objects; and knowing well that if we published the whole lecture, some foxy fellow might buy a copy of the HERALD for 5 cents, and be after discounting the author by going round delivering the lecture as his own, to make money for less laudable purposes. The historical and descriptive portions of the lecture, as he traced his course from the enchanting Bay of Dublin round the coast and bays, the lakes and mountains, the ancient castles and beautiful domains of this wonderful island, with its still more wonderful history, were very interesting, touching a sympathetic chord in the heart of everyone having a drop of Irish blood in their veins. But it was the recital of his personal experiences while traveling as a missionary in Ireland, by which were shown not only the dangers and difficulties of missionary life, but also the wit, humor and warm-heartedness of the genuine Irish nature, which brought down the house in roars of laughter. At the close of the lecture Mr. Costigan presented the thanks of the audience to the reverend gentlemen for his very entertaining address.

The lecture was followed by a duet (Slowly and Softly Music Shall Flow) by Mrs. Allen and Miss Dowling, accompanied by Mr. Wetherly. It was rendered in fine style and harmony. The song "Anchored" was next rendered by Miss rat-

crum. To say that it was with her usual clear enunciation and expression is sufficient, her ability as a soloist being well known in Calgary. The closing octette was by the same ladies and gentlemen as the opening one, piano accompaniment by Mr. Wetherly. It is no use spending time telling how well Mr. Wetherly did his part, as he is a recognized master of the pianoforte.

A few words of thanks and congratulations from Father Leduc, followed by God Save the Queen by the octette, closed a pleasant entertainment.

What a happy contrast St. Patrick's day in Calgary furnishes compared with its tragic memories in many places during years gone by. We have exchanged the club and the sword for the piano and the cornet. Instead of wounds by showers of stones we have the dotted lines on music's bars. The British lions in red jackets are not shooting fellow citizens, but ushers at the concert, in memory of the lamb-like St. Patrick. And the "little child" was there too, leading the able manager of the evening, "de ye mind."

Northwest Fruit Culture.

The subject of fruit culture occupies, we are glad to learn, a due share of attention at the Central Farm near Ottawa, superintended by Prof. Saunders. This is a subject, indeed, to which that gentleman has for many years devoted attention as may be seen from the reports of societies in Ontario with which he was connected. It is just two years since Mr. Saunders prepared his first report on agricultural colleges and experimental farm stations and it was to the suggestions that he made therein that the foundation of the present institution is due. He has, therefore, had full opportunity for carrying out his own plans and much good may be expected from the operation of the system which he has inaugurated. It was natural that fruit raising should form a leading feature in those plans, and the time is opportune for conducting such experiments as may be necessary for the improvement of both its theory and its practice. In this province it has for some years past engaged the thoughts and efforts of our leading horticulturists and only the other day was the topic of some valuable papers at the convention held at Quebec. Mr. Saunders thinks that not only apples, but pears, plums and cherries, such as are grown successfully in Northern Russia could also be raised in the same latitude of Canada, not only in the older provinces but in the Northwest. The change of climate consequent on deforestation has made varieties that were formerly fairly successful utterly useless for Canada, and only the hardiest kinds can be expected to thrive. It is of importance, therefore, that careful tests should be made of foreign fruit trees which have done well in climates equally rigorous.—Montreal Gazette.

Branch Bible Society.

An important meeting was held in the Methodist Church last night to consider the propriety of organizing a branch of the Upper Canada Bible Society in Calgary. The attendance, though fair, was not as large as it should have been. This is partly accounted for by the fact that there were other public meetings being held at the same time. The chair was occupied by Mr. W. H. Orr, and the choir of the Methodist Church were in attendance. Rev. J. C. Herdman of Knox Church began the services of the evening by reading a hymn, which was then sung by the choir and congregation. He then read a chapter from the Bible, and led the audience in prayer. The chairman then called upon the Rev. A. Andrews, agent of the society, to deliver an address. He ably reviewed the origin of the society in London and the great work it has accomplished during the 80 years of its existence. At the close of the address the choir sang that grand old missionary hymn, "From Greenland's icy Mountains." The meeting then proceeded to organize a branch of the society for Calgary. The chairman was chosen president; the resident Protestant ministers, Bishop Pinkham, Rev. J. C. Herdman and Rev. J. F. Betts, vice-presidents; J. Grant Mackay, secretary-treasurer; E. R. Rogers, J. G. Fitzgerald, A. Grant, A. Allen, W. H. Cushing and R. A. Jones, an executive board. A collection of \$6.50 was taken up, after which the choir sang, "Praise God from whom all blessings flow." The meeting was closed by the Rev. J. Betts pronouncing the benediction.

Young Man Missing.

A young man named John Butters, who has been working for Mr. Stanley Clark of the Imperial Bank, left Mr. Clark's house last Thursday in a mysterious way and has not been heard from since. He took almost no clothes with him, leaving hat, cap, coat, belt, &c., behind him, also some wages due him. Mr. Clark thought he might be out at Mrs. Newbolt's in the country where he had worked before, but it is learned he is not there. The lad is about 18 years old, 5 feet 6 inches high, and has no relations at Calgary.

The young man, John Butters, who was missing from the employ of Mr. Stanley Clark, has turned up in military uniform at the barracks.

Bible Society.

Rev. A. Andrews, agent for the British and Foreign Bible society in the Northwest has been instructed to form a branch of the society in Calgary. The Rev. Gentleman will preach in the Methodist church on Sunday evening at 7 o'clock, and on Monday evening, March 19th, at the same place and hour he will hold a meeting for the purpose of organizing a branch here. He will deliver an interesting lecture on Bible work, at the Monday night meeting, we understand several other gentlemen will address the meeting. The chair will be taken at 8 o'clock sharp. There should be a good attendance as it is a cause well worthy of support.

The East Bound Train.

At 1:30 p. m. this office received a message from Mr. VanHorne's train, the east bound express, asking to have recent eastern papers and the CALGARY HERALD sent up to his train at 2 p. m. We hustled up all the late eastern papers, and with copies of the HERALD and Tribune furnished the VanHorne party with the latest news, for which they said they were very hungry.

At 1:45 the east bound train, with a couple of officials' cars, steamed into the station. In the official cars were the great Arbitration Party whom we interviewed and reported a week or so ago on their outward trip. On board were W. C. VanHorne and private secretary and the legal gentlemen acting both for the Ottawa Government and the C.P.R. Counsel for the Government were B. B. Oiler, Q. J. of Toronto, C. E. McLeod, Q. C., and Mr. Hogg, Q. C. of Ottawa, Counsel for the C.P.R. are Chancellor Boyd of Toronto, G. T. Blackstock, Q. C. and

Alberta

The Tenderloin of Canada.

Calgary

The Denver of Canada.

As Denver

Is the centrifugal city of Colorado.

So Calgary

Is the centrifugal city of Alberta.

Eighteen years ago Denver was about the size of Calgary. Today it has a population of over 80,000.

Alberta

Is equal to Colorado in everything that will make it a great Province, and

Superior

to Colorado in many natural resources.

Question.

What is going to make Calgary become a great city?

Answer.

1st. Its geographical position on the Canadian Pacific Railway and midway between

WINNIPEG AND VANCOUVER.

2d. The vast Mineral Wealth, consisting of Gold, Copper, Lead, Iron in the Rocky Mountains to the west of Calgary, coupled with an unlimited supply of

ANTHRACITE AND BITUMINOUS COAL which is found all through Alberta, and is already being shipped in large quantities to San Francisco, which minerals and coal will make Calgary the smelting and manufacturing CITY OF CANADA.

3d. THE FINE WATER POWER which can be obtained from the two rivers that flow through the town.

4th. Millions of acres of the most fertile land in the world have been set apart by the Canadian Government for FREE HOMES. This land has been proved capable of producing very large crops of grain and vegetables in great variety, and of the finest quality without irrigation. Through these lands flow innumerable streams of the purest water, thus making Alberta a farming country second to none in the world, of which Calgary is now and will continue to be the capital and

COMMERCIAL CENTRE.

5th. THE CLIMATE is unequalled for its temperate and healthy character in the whole Northwest, being entirely free from severe storms, cyclones, blizzards and tornadoes, and is as much superior to the climate of Minnesota, Dakota and Manitoba as they are to Iceland.

6th. The fact that horses, cattle and sheep feed and fatten on the prairies the year round, the two latter when taken in large numbers in February and March are equal to eastern stall fed animals.

7th. The inexhaustible supply of Pine, Cedar, Spruce, and other valuable woods of a size and quality such as never existed in the Eastern States, on the main line of Railway and banks of the river, to the west, which is now in the log of brought in lumber by rail to Calgary and sold at low prices.

8th. The magnificent site of the town of Calgary, in a beautiful valley five miles long, and two miles wide, with two crystal rivers 120 and 300 feet wide, flowing through it at five miles an hour, surrounded by fine sloping hills on which to build private residences. In the distance looms up in stately grandeur the peerless Rocky Mountains, and in the Bow river are numerous islands granted by the government to make Parks for this Gem City of the West.

The town, now only four years old, has a population of 3,000. In it are solid business blocks built of native fire stone. There are also churches, schools, hotels, in every way first class for the age of the place. There are two daily newspapers, and the town is lighted with electricity. In fact it possesses all the evidence of steady growth and increasing wealth.

To those who wish to make investments in Real Estate in Calgary I am prepared to sell over 1,000 of the best located lots in town at prices ranging from \$30 to \$1,500 each. Possessing an intimate knowledge of the growth of the Northwestern States and Territories, I came to Calgary almost at the first and being convinced of its future greatness, at once made investments. I am the oldest, largest, and most experienced Real Estate dealer in Calgary, and feel confident I can sell property to all desiring to invest capital in this rapidly rising city at prices that will pay 50 to 100 per cent. within 12 months.

Correspondence solicited. All information asked will be furnished.

Tenders for a License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED Tenders addressed to the Deputy of the Minister of the Interior, and marked "Tender for a Timber Berth," will be received at this office until noon on Monday, the 30th day of March next, for Timber Berth No. 31, containing an area of 2 1/2-100 square miles, more or less, situate within Townships 23 and 24, in Range 1, West of the 6th Meridian, British Columbia. Sketches showing the position approximately of this berth, together with the conditions on which it will be licensed, may be obtained at this Department or at the Crown Timber Office at Winnipeg, Calgary, or at New Westminster, British Columbia.

Each tender must be accompanied by an accepted cheque payable to the order of the Deputy of the Minister of the Interior for the amount of the bonus which the applicant offers for the berth.

A. M. BURGESS,
Deputy of the Minister of the Interior,
Department of the Interior,
Ottawa, 26 Feb., 1888.

f25-1

THANKS, MR. NORMAN.

We commend the following, taken from the Canadian Gazette, of London, England, to those of our readers at a distance who have never spent a winter in the Northwest, and have any desire to push their fortunes in a new country:

"There is so much pressure upon our columns again this week that we are unable to reproduce Mr. Norman's really excellent letter on 'Winter and Wheat,' which forms the first of four articles descriptive of Manitoba and the Northwest. It is a record of actual facts, each one of which has been seen or noted down upon the spot, and it is impossible to read without being convinced of the desire to state the whole truth and nothing but the truth. The first point touched upon is the climate. 'I solemnly repeat,' says Mr. Norman, 'that the notion prevailing in England of a Manitoba winter is a mere bugbear.' 'Very cold by the thermometer,' it is true, 'but it is not very cold in reality, owing to the dryness of the air; and as to the brightness and brilliance, the atmosphere is almost Italian.' And again: 'To me three weeks' travelling in Manitoba in mid-winter has been as tonic, so far as climate is concerned, as a holiday in Switzerland.' Southern Manitoba first claimed Mr. Norman's attention, beginning with the Pembina branch of the Canadian Pacific Railway, and from that district comes this message to struggling farmers at home. The farmer in question is Mr. D. M. Wright, of Turtle Mountain, who owns 650 acres, and who sold last season 14,000 bushels of wheat out of his total yield of 17,000 bushels at an average of 51 cents per bushel:—

"I asked him," says Mr. Norman, "if he had any message for the farmers of the Old Country. 'No,' he said, 'if they only knew that what they pay at home for rent in one year would buy them the richest land in the world here, and then don't come, I guess it's no use saying anything to them!'"

COMMERCIAL DEVELOPMENT.

The following extract taken from the Canadian Gazette, from a paper read before the Royal Statistical Society of London, Feb. 23d, 1888, by Mr. Joseph Colmer, we give below:

"The next section of Mr. Colmer's paper was devoted to the progress of Canadian commerce since Confederation. During this period the aggregate of the exports and imports had grown from \$131,027,532 to \$189,675,875; or, dividing the nineteen years into four periods—the 'cycles' in which the trade of Canada, like that of other countries, has moved—and taking the yearly average, it is seen that in 1868-71 the trade was \$145,142,974; in 1872-75, \$200,914,189; in 1877-81, \$175,817,472; and in 1882-86, \$209,511,158. However, as Mr. Colmer says, it must be remembered that in the third period Canada was suffering from extreme depression; while within the last nine years the development of the manufacturing industries has led to a transition in the trade of the country. This feature is not, of course, represented in any adequate degree by these figures. They merely show the outside trade of the Dominion, for the most part leaving out of account both the immense strides made by the country in developing its resources, and the consequent of the inter-Provincial trade, rendered possible by the construction of connecting railways, and also the increase that is apparent in the wealth of the inhabitants. As evidence of this internal development Mr. Colmer pointed to the statistics of the importation of raw materials. Cotton imports had increased from 25,641,000 lbs. between 1874 and 1878 to 104,528,000 lbs. between 1881 and 1885. In wool the imports in the same period had increased by 15,439,124 lbs. while the exports had decreased 6,627,563 lbs. or a difference, comparing the two periods, of 22,066,783 lbs. available for manufacture. The importation of pig-iron had more than doubled. A partial investigation made in 1884 and 1885 indicated that in the older Provinces there had been in 1884 over 1878 an estimated increase of 65 per cent. in the number of hands employed in the industries of the country, in the amount of wages paid, and in the capital invested; while in the value of goods produced the increase had been 93 per cent. Then, again, in 1871 there were only twenty cities and towns of 5,000 inhabitants and over, with a total population of 430,043; in 1881 the number had advanced to 37, with a total population of 660,040, an increase of 85 per cent. and 53 per cent. respectively; while no one needs to be assured that the census of 1891 must show a remarkable advance in the growth both of the urban and rural population. There is, moreover, the large increase in inter-Provincial trade, which does not, of course, appear from the trade and navigation returns, and the striking growth evidenced by the bank deposits and other statistics.

Business Chance.

An excellent chance to go into the Hotel Business.

The Windsor House, 110-112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

The building is frame, 90x50, two-story high, and contains 17 separate bed rooms, and one large sleeping room with 13 beds. The Windsor is centrally located and is doing a good business, and will be sold with or without the furniture.

The license runs until June, the present year.

The whole will be sold for less than half the original cost.

Also 1 Piano (new), and 1 Pool Table. For further particulars address

Agricultural Meeting.

We have a report of this meeting prepared, but it is crowded out. It will appear tomorrow.

Rain Wagons.

Just received by S. A. Ramsay one car load of Rain Wagons which will be sold cheap. Also a full line of agricultural implement just to hand. Office 4 doors out of postoffice.

Letters.

Have been received by Acting Mayor Orr from Sir John A. Macdonald, Sir Hector Lang, and D. W. Davis, M.P., acknowledging receipt of petitions and resolutions sent from Calgary.

Bound for Peace River.

Messrs. W. R. Loyd, W. J. Patton, T. E. Swanson, Gus Mitchell and A. McEduards, all of Edmonton, are in town en their way to Peace River. They go from here to Victoria, thence overland.

Well Placed.

Ex-Archbishop Hamilton of Manitoba, now of St. Paul, Minn., says he is happy to be in Calgary this lovely day, when Winnipeg and St. Paul are deluged with snow and frost as our telegraph news tells us they are.

Fresh Fish from the Pacific.

Soules & York have just received by express the first fresh Salmon of the season. They have also received fresh Halibut, Black Cod and Rock Cod from Vancouver Coast. All in prime condition, and at popular prices.

The Ferry Sale.

Auctioneer Burns will sell the right to run the ferries at William Anderson's crossing of the Bow near Calgary and at Red Deer on Thursday, the 22nd instant, at 3 P. M. The sale will take place at George Murdoch's harness store, Calgary. See particulars in "ad."

Cattle Brands.

Those desiring to record brands are informed that they will find a card of instruction as to how to apply put up in the post office at Banff, Morley, Cochrane, Calgary, Gleichen, Red Deer, Midnapore, Pine Creek, Okotoks, High River, Pekisko, Moosquito Creek, etc. Ranchers will save much time if they read the information found on these cards before writing to the registrar, C. E. D. Wood, at Macleod.

Opening Lands for Settlement.

It will be remembered that a short time ago, the town council, the board of trade and the agricultural society petitioned the Ottawa government to open a large number of townships north of Calgary for settlement. The government have communicated with Wm. Pearce Esq., commissioner of mines and member of the government land board, on the subject. By invitation J. M. Martin and E. R. Rogers, president and secretary of the Board of Trade; Amos Rowe and J. G. Fitzgerald, president and secretary of the Agricultural society, and Acting Mayor W. F. Orr met Mr. Pearce at his office this morning to discuss the best section to open. Mr. Pearce said the government could not open all the townships that were asked for this year, as that would cost about seventy-five thousand dollars, and would also cost a lot of money to keep posts, etc., in order till settled; but at the same time were willing to sub-divide as many townships as were likely to be filled up in the next year or two. Last year six townships were opened on Lone Pine Creek and four on Dog pond. The meeting concluded that eighteen townships would be enough to open now and it was suggested that they be the following:—Tp 27, R. 21, 22, 23, 24, Tp 28, R. 21, 22, 23, 24, Tp 29, R. 22, 23, 24, Tp 30 R. 22 23 24, 25, 29, Tp 31, R. 25 26, all of which are west of the 4th meridian. Most of these townships are outside of the railway belt. The centre of the block is about 50 miles west of Calgary by a route easy to make a road through. Mr. D. C. Campbell, of Calgary, who knows that section of country well, says the soil is good, plenty of good streams and sufficient timber for use of settlers, also lots of coal in the neighborhood. There are several good settlers farming there now, amongst whom are George Johnson and J. C. Cook. Though part of these lands are in the Hand-in-Hand Co's hands they are open for settlement, having

been leased under the order in council of June, 1885. The opening of roads to this district is in the hands of the Northwest Council. But there is no doubt the Ottawa government will assist in so important a matter.

Onderdonk Arbitration.

It was so near time for going to press when we met Mr. VanHorne and party at their train yesterday we were unable to get in a full report of the interview. The dispute which is now being arbitrated upon is, as we stated at the time. Mr. VanHorne went west, one arising out of the contract between Onderdonk and the Canadian Government for the construction of that part of the line between Port Moody and Kamloops, which the government agreed to hand over to the C. P. R. constructed up to a certain standard, and which the C. P. R. claim was not done, and now ask compensation or some return from the government for having to spend large sums of money in making the road fit to carry on traffic safely. The object of the present visit was largely for the purpose of taking evidence, ascertaining facts through an examination by competent engineers, and arranging the preliminaries, (as one of the counsel for the crown put it). The sittings of the arbitration will take place at Ottawa in a short time. At the present stage of proceedings they declined to give particulars which might be prejudicial to either party.

Mr. Young's Accident.

The accident to Mr. Young, of Sheep Creek, which we noted yesterday was of a very serious character his left leg having been broken in three places. Mr. Young was riding into Calgary from Mr. Hamilton's place on the McLeod trail when his horse slipped and fell on Mr. Young's leg breaking it as above stated. Very fortunately a good Samaritan came along with his wagon, into which he lifted the injured man, and brought him to the Grand Central Hotel. Dr. Lafferty was at once sent for, who succeeded in satisfactorily reducing the fractures and placing the poor fellow in as comfortable a position as possible. We learn that the patient under the skillful care of Dr. Lafferty is doing well.

First Arrival of Immigrants.

Mr. Cyr Miquelon, agent at Calgary, informs us that he has received the first instalment of immigrants for the season this morning. Two young men who left Dublin on the 2nd instant are here on their way to join their relatives at Moosquito Creek, where they intend to settle. They say that many more will follow their example this year.

Indian Supplies.

Boys on the war-path. Up to 2:15 p. m., some forty dogs have been run in to the pound Stephen avenue west. One youth is said to have made \$4.50 in rewards. It is to be hoped that the owners of the dogs will call up and redeem them before the time of execution arrives. The town treasury needs the funds, and the dogs are in no condition for making sausage.

Look out for the Swindler.

A special from Banff says: A man left here with several bank cheques signed by Dr. Brett, on the morning of the 20th inst. He also took about seven hundred dollars in cash belonging to the same gentleman. The Calgary Chief of Police has a full description of the party.

Fresh Shipment of Potatoes.

Received to-day at BANNERMAN'S a car load of Manitoba Potatoes in fine condition. Cheap! Cheap!

Millinery Department.

We are now opening out the latest styles in millinery, at Rankin & Allan's.

For brick work, stone work or plastering, call on Fraser, the general mason.

Cowboys, a big range at Glanville's Clothing House.

Boys' clothing cheap. Glanville's Clothing House.

RECONSTRUCTED.

A Meeting of the Members of the Agricultural Society.

A large meeting of farmers and townsmen was held in the Fire Hall, Calgary, at 2 p. m. Monday, for the purpose of reconstructing the agricultural society. This meeting was the adjournment of a former meeting held some weeks ago. In the absence of the president Major Walker, Amos Rowe, Esq., was called to the chair. The secretary Mr. Fitzgerald was in his place. After reading the minutes of last meeting the auditors report was presented. Some of the principal items of receipts, were balance on hand Dec. 1886, \$149.10, grant from North-West Council \$400, subscriptions \$258, receipts from entries \$327.34, Dominion grant, \$750, members fees \$256, receipts at gate \$247.25, members fees for 1888 \$74, which with some small items made a total of \$2430.76. The large items of expenditure were Oliver Goodman contracts for building exhibition hall \$853, extra on building \$78.25, Building fence round the grounds \$333.90, paid in prizes \$738.50, together with minor expenses amounts in all \$2340.28, leaving a balance on hand of \$90.48.

We understand copies of the report can be had on application to J. G. Fitzgerald, Sec. Treasurer.

Before proceeding to the election of officers, those present who were not members were invited to join and pay entrance fee so they could vote a large number done so. A resolution was carried that voting for officers should be by ballot. At this stage a rather lengthy discussion took place between Mr. Carney, Mr. Reilly, Mr. Sparrow, Mr. Munro and others. Mr. Carney claimed that as treasurer of the society he had not had fair play in not having the handling of the money of the society and that the business was done honestly. It was done in a most unbusiness like manner, and thought he Carney kept a bank book for society's money. The \$400 grant from N. W. Council and the \$750 from Ottawa was not passed through his hands and consequently he could give no statement of disbursements. Mr. Carney was sustained by the auditors who said the business was not regularly done. The chairman ruled that the discussion was out of order at that moment, the resolution to vote by ballot was carried. A long talk then followed which is not of sufficient interest to the public, for us to publish, but was quite in place at the meeting so that a correct understanding should be arrived at all matters connected with the working of the society. The chairman pointed out in the past the society had been in a sort of chaotic state, but being now incorporated with a legal succession of officers and each officer's business defined by the amended ordinances, there need be no trouble in carrying on the business of the society without any friction or misunderstanding whatever. The ballot was proceeded with, Joseph How said he was there to represent Major Walker, and was willing to set as president if it was so desired. R. A. Jones and Mr. Thompson of the M. B. Co. were scrutineers. Amos Rowe was elected president over a large number nominated. Mr. Fitzgerald was elected secretary by a large majority. Vice-presidents elected were Leo Gaetz, Samuel Rae and James Bannerman. Mr. Carney read a letter from Leo Gaetz in which was inclosed the sum of \$10 to assist if needed in forming the society but as more than enough have been raised for that purpose, the \$10 would remain at Mr. Gaetz disposal. A unanimous vote of thanks was passed to Mr. Gaetz for his liberal offer.

It was moved by Mr. Cayley that the number of directors be 12 instead of 6, this was carried. The election of directors resulted in the selection of Major Walker, S. Livingston, A. J. Wilkins, A. B. Bruner, R. A. Jones, J. Maw, H. Munro, A. Allan, J. McPherson, J. M. Moore and B. Wright. After the election of officers some very important matters were talked over by practical gentlemen present. The chairman drew the attention of the meeting to the manner of distributing the \$10,000 grant from Ottawa to the territories and urged upon this meeting that it authorize a committee to write our delegates new at Ottawa by last night's mail, asking them to urge upon the Minister of Agriculture that some fair distribution of the \$10,000 be made, either pro rata to the several territories or some other method which would ensure to Alberta its fair division of this grant. A committee was appointed and the matter attended to last night. A resolution of condolence with Major Walker in his late bereavement through the death of the Major's father in Ontario, was passed.

A vote of thanks to the council for use of the hall was carried, and the meeting closed at 8:15 p. m.

The New Chinese Treaty.

To the Editor of the HERALD.

Now that our American cousins have

signed a treaty, which prohibits any Chinese native entering the States. Would it not be advisable for our city fathers, and the clerical and medical gentlemen to call a meeting of the citizens to discuss this matter, as most absurdly there will be a rush of them into Canada, and as opium smoking, pauperism, playing and immorality are some of the charges against them, it would also be better if they would returned to China, and thus save us from the death of small pox, and leprosy, as lately in Honolulu. Ante Chinese.

Ottawa Delegation.

At 2 o'clock yesterday afternoon the express train from the west, with the arbitrators cars attached, and which was 11 hours behind time, whistled "off brakes," dashing out of the station yard at a rate that would indicate the intention of Mr. VanHorne to get to Ottawa in time to take part in settling the monopoly question. We hope he won't charge another million for his presence at the funeral of monopoly. Some time before the train arrived the leading men of Calgary, without respect to politics, (thanks to their common sense) began to gather at the station to see our delegates, Mayor Shelton and A. Lucas, Esq., off on their mission; before they boarded the train a large number had assembled. Much shaking of hands was done and many wishes for success in securing for Calgary and Alberta the concessions and grants they were going to ask the Government for were expressed.

The Show.

The Burbank Panoramic Company gave an exhibition in the Royal Opera House last night to a good house. The views, commencing at Montreal and ending at the British naval station at Esquimaux, B. C., are very good; but the light used was not powerful enough to show up the photographs distinctly on the canvas. This being an entirely Canadian work, should be patronized by the people of Canada.

Grand Central.

Fred Broomer, Camrose; J. Erckson, do; N. McCauley, Sheep Creek; Kenneth Cameron, do; D. Rools & son, do; J. Robinson, do; D. Bain, do; McDonald, do; Isaac Hunter, City; E. Johnson, do; L. Men's suits; a splendid line Glanville's Clothing House.

See the new shapes in hats at Glanville's Clothing House.

Spring overcoats, cheap at Glanville's Clothing House.

Glanville's gent's furnishing stock takes the lead.

SOCIETIES.

ALBERTA ASSEMBLY, E. of L. No. 3767, A. meets every Tuesday evening in Masonic Hall. All working men are invited to join. Visiting brethren cordially invited. Application addressed to the P. O. Box 50 will be answered in full. Any persons desirous of forming an Assembly of Knights of Labor can receive full information by addressing "Organizer," Box 50, Calgary.

ODD FELLOWS.

Grand Opening of Their New Hall on Stephen Avenue.

A Conversation was given by the Independent Order of Oddfellows in their new hall, in the new CALGARY HERALD block, last night. The tickets were all complimentary, being presented by the brethren to their friends. The hall was very tastefully decorated for the occasion. In addition to the furniture belonging to the lodge, there were a number of very fine engravings and oil paintings placed on the walls. The hall is richly carpeted and the four official chairs are something superb; indeed, everything is both unique and beautiful. Two fine, large, Union Jacks indicated the nationality of the brethren. About 150 ladies and gentlemen were present. The "At Home" was opened by a neat speech from District Dep. Grand Sire George Murdoch, in which he reviewed the history of the Order from their first organization in England, about 200 years ago, down to the present.

Mr. Crane sang the "Village Blacksmith" in good style and with fine effect. Mrs. Joseph Millward sang "Annie Laurie," which was very well received.

Messrs. Kirk and Sanders gave solos on the cornet and clarionette.

Mr. H. H. Weatherly presided at the organ with his usual ability.

After the music about 35 couples went down stairs to the main room of the HERALD office and engaged in the merry dance to music on the piano and violin by Messrs Eugene Watson and P. Doyle. During this time a large number were enjoying themselves round half a dozen progressive euchre tables in the hall. The ladies' first prize was won by Miss McBride, and the gent's first prize by Mr. John L. Bowen. Refreshments were furnished in the shape of coffee, sandwiches and cake, by Mr. W. H. Kinnerton in his usual well known manner. His part of the programme seemed to be as well enjoyed, as any part of the evening's entertainment. The party broke up about 8 o'clock, and all having thoroughly enjoyed the opening festivities of the opening of this fine new hall.

LEGAL.
